## SECTION 1 DIMENSIONS

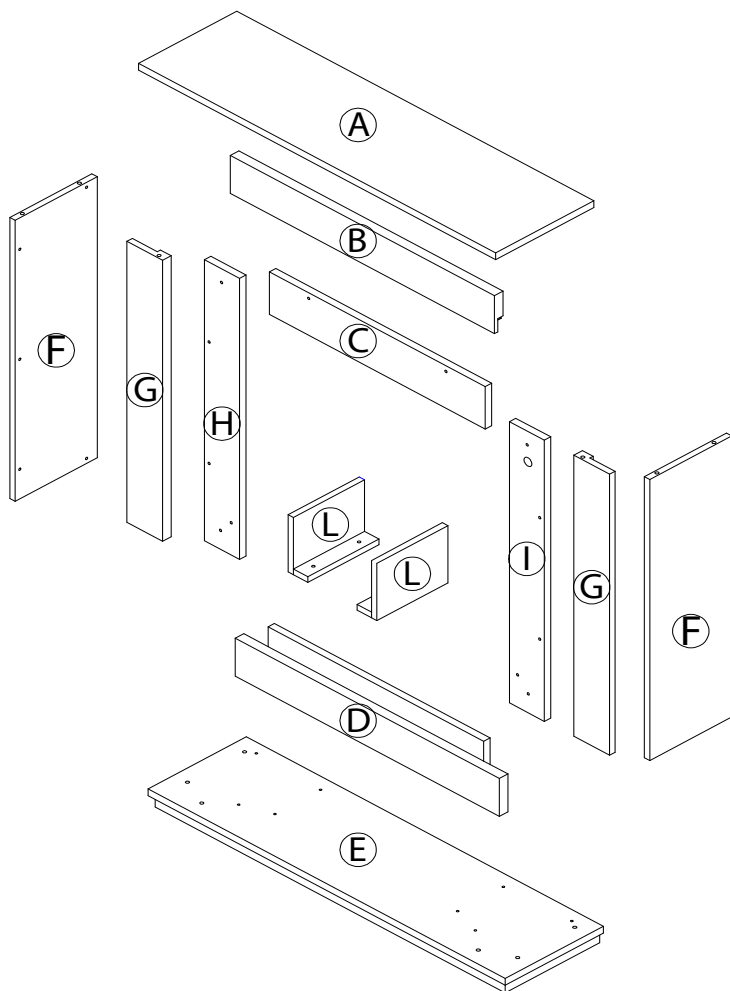

Dimensions in mm

## SECTION 2 ASSEMBLY AND INSTALLATION

### 2.1 Unpack

- Open the package carefully and remove all pieces. Carefully inspect each part for any damage before you begin assembly.
- Make sure that you have all the parts listed below before assembling.

| No. | Name                                                                                              | Quantity |
|-----|---------------------------------------------------------------------------------------------------|----------|
| A   | Top panel                                                                                         | 1        |
| B   | Front top panel                                                                                   | 1        |
| C   | Second top panel                                                                                  | 1        |
| D   | Front bottom panel                                                                                | 1        |
| E   | Base panel                                                                                        | 1        |
| F   | Side panel                                                                                        | 2        |
| G   | Front side panel                                                                                  | 2        |
| H   | Left inner side panel                                                                             | 1        |
| I   | Right inner side panel                                                                            | 1        |
| L   | Fire support panel                                                                                | 2        |
| J   | Wood dowel     | 12+1     |

| O   | Flat bracket  | 2+1      |
| P   | L bracket    | 15+1     |
| Q   | Rubber feet  | 4+2      |

**NOTE:** left and right of product are distinguished by its front view.

## 2.2 Before installation

Tools required: magnetic phillips screwdriver

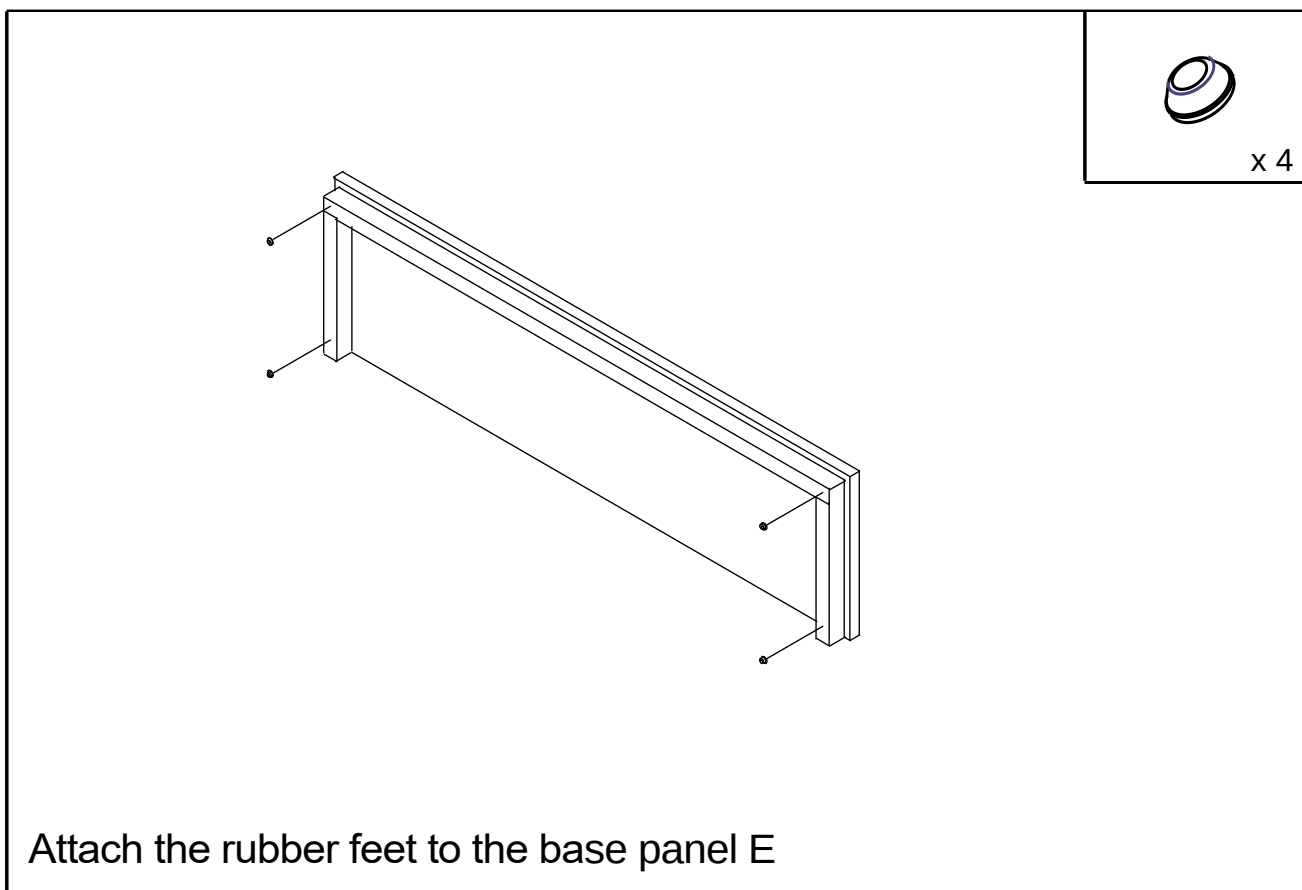

## 2.3 Installation

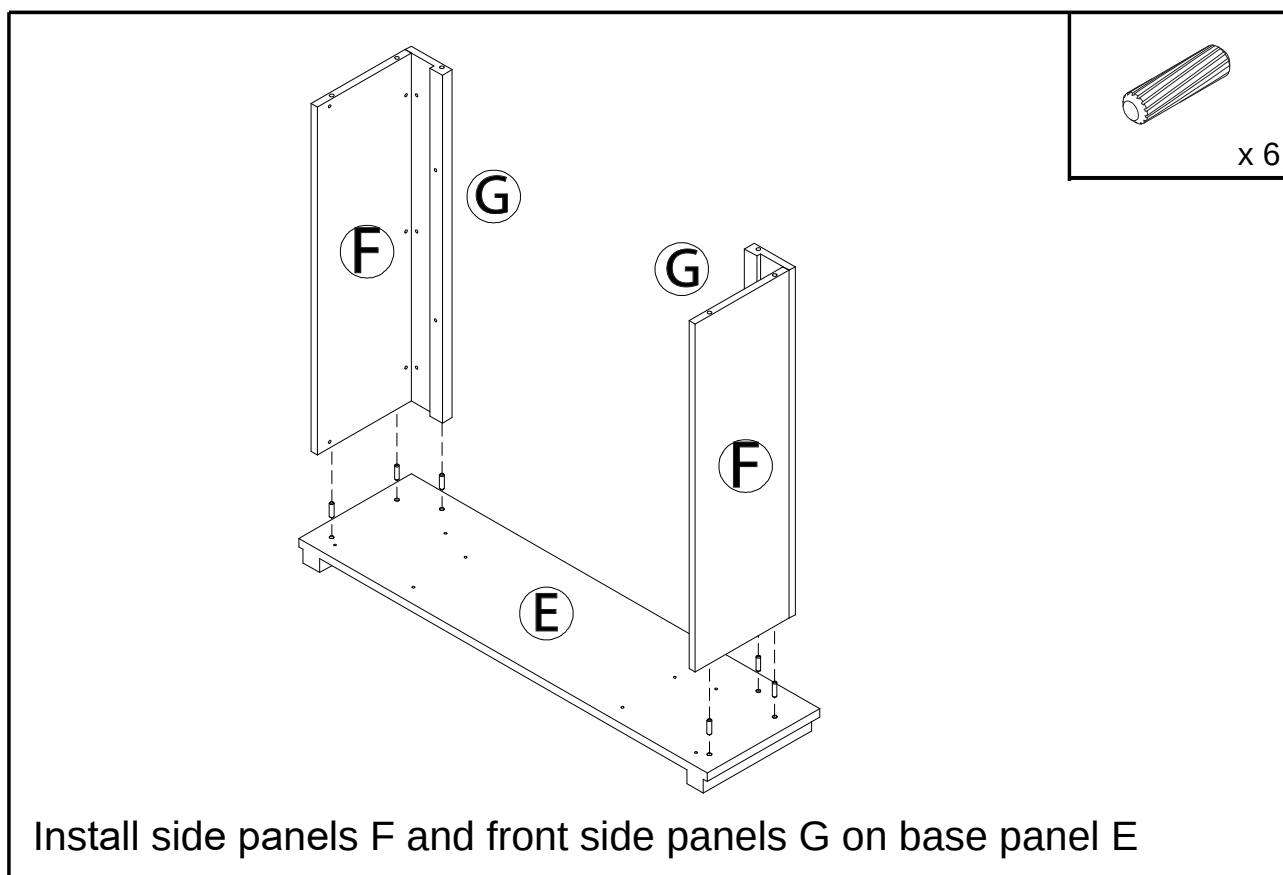

### NOTE!

- Assembly required by two adults.
- This fireplace suite must be fitted to the wall. Mirror plates are supplied with the electric fire but any other suitable concealed fixing may be used.
- Use manual screwdriver only.
- Use washer when fixing with screws. Do not overtighten bolts.
- Do not use screws of other types or models, in case that the screws are too long, causing damage to mantels.
- Only fit the fire from the back of the fireplace so as not to scratch the mantel.

## Step 10:

## SECTION 3 CLEANING & MAINTAINENCE

- 1 Your fireplace mantel surface coating will give off a slight smell for a short period of time. Try to ventilate as much as possible during this time.
- 2 Daily cleaning: Clean the mantel surfaces with a soft, lint-free cloth. Do not use cleaning or polishing products and try to avoid heavy or sharp articles which may damage the surface.
- 3 Avoid long-term direct sunlight, and excessive temperatures and humidity to protect the life of your furniture surface.
